

LEA COUNTY ELECTRIC COOPERATIVE, INC.
EIGHTH REVISED-RATE NO. 23
CANCELING SEVENTH REVISED-RATE NO. 23

PRIMARY SERVICE UNDER 500 KW
(X) Changes

Page 1 of 2

AVAILABILITY

Available system-wide, under contract, for petroleum pumping, pipeline pumping, government agencies, industrial uses, and such other service in conjunction therewith and incidental thereto, supplied at one point of delivery, measured by watt-hour meter, where facilities of adequate capacity and suitable potential are adjacent to the premises to be served under 500 kW demand.

Not applicable to re-metering or breakdown unless specifically contracted. Not applicable to resale or standby service.

MONTHLY RATE

Customer Charge	\$ 150.00	
Demand Charge – per kW	\$ 10.70	X
Energy Charge – per kWh	\$.059499	X

If service is provided at primary voltage, and the customer owns all facilities past the metering point, the Demand Charge and Energy Charge shall be reduced by three percent (3%).

MINIMUM CHARGE

Each billing period the customer shall be obligated to pay the Customer Charge and the amount stated in any agreement with the customer, whichever is greater as a minimum, whether or not any energy is actually used.

TERMS OF PAYMENT

The above rates and adjustments are net.

CONTRACT PERIOD

Any contracts under this schedule shall be made for a period of five years and will terminate at the end of the five-year period.

DETERMINATION OF BILLING DEMAND

The monthly kW billing capacity shall be the highest 15-minute kW reading in each billing period or the contracted kW demand.

LEVELIZED FUEL AND PURCHASED POWER COST ADJUSTMENT CLAUSE

For purposes of this clause purchased power cost is defined as purchased electricity cost from all suppliers without deduction for wholesale interruptible credits.

The above rates are based upon the cooperative's cost of purchased power for the year ended December 31, 2022, in the amount of \$.065154 per kWh sold.

Method Of Calculation:

- A. The cost of purchased power to be used for the levelized purchased power cost adjustment (PCRF) shall be computed in accordance with Rule 550 of the New Mexico Public Regulation Commission.
- B. The procedure for monthly updating the levelized PCRF and reporting actual PCRF costs compared to amounts billed under the levelized PCRF shall be in accordance with the NMPRC Final Order under Case No. 2215 granting variance from NMPRC Rule 550.
- C. The charge per kWh of the above rate shall be increased or decreased by the amount that the Cooperative's purchase power cost per kWh exceeds or is less than the cooperative's base cost of purchased power of \$.065154 per kWh sold included in its rates.
- D. The Cooperative will roll over into a balancing account any over or under recoveries that occur and will incorporate that amount into the purchased power cost for the next rolling six-month period, unless otherwise directed or ordered by the commission. In addition, the Cooperative will calculate interest at an annual rate equal to the rate paid on security deposits on all month-end cumulative over collections of its levelized PCRF clause and will reduce purchased power cost in the month following any cumulative over collection by the interest calculated.

TAX ADJUSTMENT CLAUSE

Billing under this rate may be increased by an amount equal to the sum of the taxes payable under the Gross Receipts and Compensating Tax Act and of all other taxes, fees, or charges (exclusive of ad valorem, state and federal income taxes) payable by the utility and levied or assessed by any governmental authority on the public utility service rendered, or on the right or privilege of rendering the service, or on any object or event incidental to the rendition of service.
